

The Impressé

Band Sealer

Our newest addition to our band sealer line, the **FRM-1010 band sealer**, presents a combination of elegance and functionality. Providing a wider seal (15mm), the **FRM-1010** provides the most professional and efficient band sealer on the market. The **FRM-1010** band sealer is a heavier duty model compared to our CBS and HLM band sealer lines and also provides better sealing quality. The **FRM-1010** is suitable for sealing all types of thermoplastic materials and bags. This sealer can be used in a variety of fields such as the food, medical, and cosmetic industries. Can seal 20-30 6" poly bags in one minute. **FRM-1010** uses dry ink coding to print numbers or letters on the seal line, but ink ribbon imprinting is also available via special order.
